Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English. Brand new Book. The book is a feasibility and market research for the product; commercial drone. Drone is an aircraft piloting through wireless remote rather than human beings. It's the same as a flying robot. This innovation as well as technology was initially restricted exclusively for only military use in war zones where human piloted aircraft cannot fly to attack and come out alive. Until it's importance in the areas of photography, security, film making e.t.c was noted leading to its commercialization and civilian use. The book is a highly informative, resourceful and well researched commercial drone product business plan. It clearly and simply explains in details how to start drone product business in Nigeria. All aspect of starting up and operating a business in Nigeria is well analyzed. If you ever hoped to set up a business or commercial drone product business in Nigeria. This book will extensively serve you better. This is with regards to the volume of vital drone business information it contains. From cost of operation and capital expenditure to market viability and maximized profit.
